

## PANEL OVERVIEW

Application	Exterior
Design	Solid, Woodgrain
Fasteners	Color Matched Screws

## PROJECT DETAILS

Stonewood panels in various solid and woodgrain designs adorn a brand-new retail mall in Anchorage, AK. Spark Design, LLC stylized the six-unit building with urban-inspired details, modern sensibility, and a seamless design flow. Custom-cut Stonewood Panels in various mixed woodgrains offered a warm contrast to the clean modernity of the solid black panels embellishing the roofline.

When completed, the retail mall will feature an Orange Theory Fitness Center and Smashburger restaurant.
