

*Stonewood Panels are proudly Manufactured in America with a short 3-week production lead time.*

*Over 241 exterior panels were installed in three different colors, attached with metal screws to match panels.*

## Project Details

From humble beginnings in 1996, Veterinary Specialists of Alaska has grown steadily into a multiple specialty, multiple doctor practice. Its goal is to provide you and your pet with the most advanced treatment options available. The building houses numerous exam rooms and offices, a radiology lab, physical rehabilitation center, sterilization and treatment areas, patient housing, and surgery and recovery rooms.
