Welcome to Written in Stone, Stonewood Architectural Panel’s informative and succinct newsletter. Each quarter you can expect educational insights from the Stonewood Innovation Tracker and featured projects that showcase Stonewood Architectural Panels’ wide breadth of possibilities.

STUNNING and AWARD WINNING DESIGN

The new 37,580 sq. ft. Culinary Arts & Convergent Digital Arts Joint Facility at Lorain County Community College houses three teaching kitchens, a dining lab, multi-use spaces, and much more.

The project used over 344 Stonewood Interior and Exterior Architectural Panels to carry the stunning, natural wood aesthetic from the exterior soffit into the interior ceiling over the main entry and monumental staircase. This project is seeking LEED certification and has received a 2013 Honorable Mention Award from the Cleveland Chapter of the American Institute of Architects for Achievement of Excellence in Architectural Design.

WHY STONEWOOD?

- MADE IN AMERICA
- RAPID LEAD TIMES
- SUSTAINABILITY
- PROVEN, TESTED PERFORMANCE
- YOUR CHOICE: COLOR, SIZE, SHAPE
- SKILLED DOMESTIC CUSTOMER SERVICE

STONEWOOD SHINES IN MIAMI

The Croydon Hotel, debuted a chic, newly renovated lobby thanks to Stonewood Interior Panels. Originally built in 1937, the Croydon Hotel featured drab interior that offered little protection from Florida’s notoriously humid and moist weather conditions.

Over 75 Amber Cherry panels were installed in the hotel’s lobby, reinvigorating the space with a fresh, new atmosphere and offering superior moisture resistance to protect the hotel’s interior.

STONEWOOD INNOVATION TRACKER

Committed to Sustainability

At Stonewood, we’re so inspired by nature, we literally built our name from it. In 2013, we earned the Forest Steward Council® certificate, signifying our commitment to combatting deforestation through the ethical, strategic use of land and materials. All Stonewood Architectural Panels are crafted from responsibly-sourced, thermally-fused kraft fiber paper. Our panels have negligible VOC’s and use formaldehyde-free substrates for the safety and continued health of our employees and customers. The production plants rely on renewable energy to heat our presses and feature in-house recycling for the continued reuse of wood, paper, pallets and corrugated paper for the good of our company and our planet.
