

# Project Profile

**Delta® Airlines Jet Bridges**  
**Hartsfield-Jackson Atlanta International Airport**  
**Municipal Buildings**

*Close-up of Stonewood Interior Panel installed on Delta Airlines jet bridge.*

*Multiple panels at the end of the jet bridge create uniform seams and are easy to clean.*

*Tough, durable, and decorative interior panels installed on jet bridge.*

## Why Stonewood?

A jet bridge application requires strength, rigidity, durability, moisture resistance, and decorative appeal. Stonewood Interior Panels offered Delta a total solution and are proudly Manufactured in America.
